

Answers to Parking Lot Questions

From Public Budget Meetings

Jasper Municipal Library

To be considered in the future:

- How can library funding become more sustainable?
 - o Seek funding from other sources, including the Improvement District, Parks Canada, visitors, or some form of tourism levy
 - o Use municipal census data (which includes Jasper's shadow population) to increase the amount of the provincial grant

Culture & Recreation

- What is the cost recovery of each recreation facility?
 - o See Appendix 1
- Please provide a breakdown of maintenance reallocations between departments (963 lines in the budget document).
 - o See Appendix 2

Operations

- Is there an option for a water tank to be installed at the proposed bike park? Or a temporary alternative that would meet the needs of the JPCA?
 - o Temporary options will depend on the volume of water needed, the frequency of use, the pressure required, the area to cover, etc. More information is needed in order to price out what is feasible.
- Please provide a summary of current state of debentures (and those just paid), and guidelines for debt limit for municipalities.
 - o See Appendix 3

To be considered in the future:

- Revenue and expenses for the Jasper Cemetery, operating models, philosophical question about providing cemetery services

Finance & Administration

- Please provide budget actuals for 2014 and 2015 for Council expenses, for the purpose of comparing expenses to budgeted amounts.
 - o See Appendix 4

Municipality of Jasper – Answers to Parking Lot Questions, Budget 2017

- Please provide a copy of the 2016 Capital budget.
 - o This document is available on our website. The Director of Finance and Administration will provide a status report and a request for specific projects to be carried forward into 2017 at a Council meeting in the new year.

- What is the total municipal contribution to the Tour of Alberta?
 - o If supported by other members of the Jasper Partnership Initiative, the financial contribution from the Municipality of Jasper will be \$50,000, which represents a \$40,000 increase for this particular line item in relation to the 2016 budget.

To be considered in the future:

- Consider the value for money of the Community & Economic Development Fund.
- Can the Municipality generate more revenue from out of town properties by reviewing taxation rates and which services are provided?

Community & Family Services

- Where do we stand provincially in terms of provision of pre-school? And how many are run by municipalities?
 - o Preschools in the region are run by private societies or organizations. The other municipally-run daycare centres in the region do not offer preschool programs. Currently Jasper has a licensed preschool run by the ACFA and another licensed playschool that is privately run (Wild Roots Playschool).

- Please provide a breakdown of the funding for Community Development Specialist position.
 - o See Appendix 5

Protective Services

To be considered in the future:

- Lobby CBC radio to bring more channels to Jasper, in conjunction with bringing Radio Canada to Jasper.

Community Development Specialist Financial Breakdown and Sustainability

1. Family and Community Support Services has increased its annual funding, providing Community and Family Services with \$24,184 more than it previously received.
2. Since 2010, \$20,678 has been in the budget and applied to lease payments for 627 Patricia St. In 2016, CFS began providing office space for an Alberta Supports worker, resulting in a renegotiated lease, freeing up that \$20,678 to be applied to the new Community Development Specialist position.
3. The Jasper Community Team is cost sharing this position, providing the funding over and above the \$44,862 provided by the lease savings and additional FCSS dollars.

Thus, adding this position has a zero impact on the municipal budget.

SUSTAINABILITY
